FURTHER THOUGHTS ON COITER

In a former article on coiter I

spoke of its absence among fish eat-

ing people; that the iodine therein

seemed to keep people free from it.

In the real goiterous condition with

the bulging eyes, nervousness, and

rapid heart, there has seemed only

one way toward cure, and that was

by surgery.

As a matter of fact, so many people

have shrunk from operative measures,

that physicians in an effort to give

help, have been able to relieve these

sufferers from much of their distress

by hygienic measures.

You see most of these cases give a

history of a shock, a fright, a severe

illness of some kind, and in a few

weeks thereafter, they have noticed

the lump on the neck, that their heart

seemed to pound, and that they were

extremely nervous and irritable.

And so physicians using this as a

basis have endeavored to treat the

patient from this standpoint.

Accordingly the first thought in

these cases is rest. Rest in the real

sense of the word. Mental and phys-  
ical rest.

Where possible they are sent to the

country, to the quietness and to the

fresh air. Away from shopping, pic-  
ture shows, household or businesscares, to the restful influence of coun-  
try life.

If this be impossible, they are

forced to rest in a well ventilated

room a number of hours each day.

Rest then is the big consideration.

Nothing but the lightest form of lit-  
erature is allowed, because excite-ment or emotional disturbances of any  
kind are very harmful.

Then catering to the appetite is the

next thing in order, and light, nour-

ishing easily digested meals are pre-  
pared in a variety of ways. However,anything that would be stimulating to  
the nervous system is prohibited such  
as alcohol, tea and coffee.

The meals are small but are given

as often as five times during the day.

Constipation is not tolerated, and

some light health salt is used daily.

The advice then is whether you con-  
template operation or not, the abovesimple hygienic measures may cor-  
rect the condition entirely, or shouldsurgical measures be decided upon  
you would be in better shape to un-  
dergo the operation.

Her Neat Little Scheme.

Wife—Dear, if you'll get a car I

can save a lot on clothes during our

vacation this summer.

Hub—How do you mean?

Wife—Well, you see, if we go to

one hotel as formerly I'll need seven

dresses; whereas if we have a car I

can get one dress and we'll go to sev-  
eral hotels. —Boston Transcript.

## 20 YEARS AGO

(Issue of Sept. 13, 1903.)

Few can boast of perfecting an im-  
portant invention after reaching the  
age of 87 years, and retired from ac-  
tive life, but this distinction has  
been earned by Henry P. Adams, this  
city, who has been working for 17  
years on an invention of a cultivator.  
It is adapted for use in the cultivation  
of sugar beets, tobacco and radish  
and any kind of plants grown in rows.A petition is being circulated ask-  
ing the county commissioners to do  
some grading at Blackburn hill, just  
west of Salem. It was generously sig-  
ned.Twelve boys employed at the Me-  
Nab cannery plant went on strike this  
morning. One of the boys reported  
late for duty and his services were  
disputed with and the other boys con-  
sidered this an injustice and walked  
out. None of the boys are over 16  
years of age and their action will not  
cripple the plant to any extent.Monday will be red carnation day  
in memory of William McKinley, the  
late president.The Youngstown & Southern Elec-  
tric railway has purchased a fine  
large automobile. It is said to be the  
most expensive machine of the kind

# HOME PROBLEMS MOST IMPORTANT

COAL AND RAILROADS ECLIPSE FOREIGN AFFAIRS JUST NOW IN WASHINGTON.

FUEL PROMISED BY COOLIDGE

Supposed Troubles of the Farmer Are Intimately Connected With the Railway Question—Government Ownership May Be Campaign Issue.

Washington.—Foreign affairs temporarily seem to be under the cover. It appears that the President is arranging to let the Harding policy of American membership in the world court rest quietly until the senate shall take it up in December.

There has just come from the White House, in fact, an intimation which in effect is specific information that the President is satisfied to let the question of American participation in an attempt to straighten out European affairs rest where it is for some time to come. There are two great matters which are giving concern to the government today. They are domestic in their way and, briefly, they can be written down as "coal" and "railroads."

Judging from the general trend of discussion in the press and on the stump throughout the country, it might seem that agriculture is the chief matter of concern. In a way it is, but the railroad question is so intimately connected with the agricultural question that in part the two can be considered as one.

President Coolidge has said that the consumers shall get their coal next winter. At this writing it is not known definitely how he intends to accomplish this beneficial purpose if a strike shall come and production shall cease. It seems, however, that the White House statement is direct, and it is unusual for such words as these to come from the executive mansion unless there is full intention to back them up and full knowledge of the way to back them up.

**Government Ownership Issue.**  
In the winter of 1903 President Roosevelt settled the anthracite coal strike. Some people said that he was exceeding his constitutional powers, but operators and miners accepted his dictum and the consumer got his coal; and, in the face of this result, criticism of extra-constitutional proceedings faded and passed on.

It seems that agriculture and the railroads, separately and yet in a way together, are to be two of the main points of controversy in the next campaign for the presidency. One Democratic candidate for the nomination, and a most prominent one, is said to be in favor of government ownership of the carrier corporations. It is said that in this position he has the support of organized labor throughout the United States. There are other Democratic candidates for the nomination who do not believe in government ownership. The candidate who does believe in it is said to have the approval in his ambition to be nominated of a Democrat who on several occasions has sought the presidency in his own behalf.

So far as is known, there is no Republican candidate for the presidency, receptive or otherwise, except one who has little chance of receiving his party's favor, who believes that government ownership is the answer to transportation troubles. The politicians here say that the Republicans will fight government ownership, but take a strong affirmative position on government regulation.

## What About the Farmer?

An attempt will be made during the meeting of the next congress to do something further for agriculture. Admittedly the layman onlooker in Washington does not know today just what to believe about the agricultural situation. One United States senator rises to say that it is worse than it ever was in the history of the world, while another American, one-time secretary of agriculture under an administration of a different political complexion than the one now in office, rises to say that the United States senator does not know what he is talking about.

Word comes to Washington from here and there that the farmer is prosperous and in half an hour word comes from here and there that he is on the verge of bankruptcy and that nothing can save him except drastic congressional action.

It is recognized here by the politicians and by government officials generally that there is a conservative element even today in agriculture. It would seem that this conservative element is having its voice drowned by a flood of words from a nonconservative element. It is hard to give the facts, doubly hard, indeed, for what one man says is a fact another man says is a falsehood.

Agriculture received more attention in the last congress than any other one subject. The Congressional Record is full of speeches on the "soil." When the talk subsided and such legislation as passed went into effect, the situation seemed to be just about what it was at the beginning. At least one would say so, judging from what is being said in a good many of the states of the Union this day.

Michigan has nearly 12,000 tool-makers, which is more than any other state.

## Burns Oil in Any Stove

Cheaper Than Coal or Wood—Gives Twice the Heat in Half the Time

A wonderful new burner which works in any coal or wood stove or furnace is the proud achievement of the International Heating Company, 119 South Fourteenth st., Dept. 3367, St. Louis, Mo. This remarkably simple and inexpensive invention heats stove and oven in half the time and does away with all the dirt, ashes, and drudgery of using coal or wood. It gives one of the hottest and quickest fires known, controlled by a simple valve. It can be put into any stove in a few minutes. The present high price of coal makes it a great money saver. The manufacturers offer to send this remarkable invention on 30 days trial to any reader of this paper. They are making a special low price offer to one user in each locality to whom they can refer new customers. They also want agents. Write them today. Adv.

## Great Corn Yield Increase Predicted

Columbus, Sept. 13. — If present forecasts are fulfilled, this year's corn crop will be approximately 4,000,000 bushels larger than a previous crop, according to a forecast issued here by C. J. West, state federal crop statistician.

"The corn crop this year is showing Ohio farmers will produce under favorable weather conditions," Mr. West said. "The crop is now forecast at a little less than 178,000,000 bushels. The rains have been ideally distributed throughout the growing season and the temperature has been well distributed. This year's crop is uniformly good over practically all sections of the state. The crop is not yet entirely out of danger from early frosts especially in the northern part of the state."

The previous record crop, according to Mr. West, was in 1912, when the production was 174,000,000 bushels, while the 1920 crop was about 2,000,000 less than in 1912.

### Harding Memorial Stamps Are Received

The first supply of Harding memorial stamps to reach Salem was received Thursday morning at the postoffice, it was announced by Postmaster G. H. Mounts. They are of two-cent denomination and can be purchased at the stamp window.

### Normandy's Cows

The Cotentin cattle of Normandy, which their owners believe to be the best milkers in the world, are long, angular, big framed and unprepossessing in appearance, with heavy heads, necks and shoulders, and white, crumpled horns. In color they vary. Brown, roan and red are most numerous, but there are many piebald and brindled. An American investigator says that it was proved to him beyond doubt that these cows will produce 40 pounds of butter a month during the greater part of the period of lactation, without any pampering in food or treatment. All attempts to improve them by crossing with other breeds have failed so far as milk-producing capacity is concerned.

## WATKINS APPEALS TO SUPREME COURT

Youngstown, Sept. 12.—James Watkins, former chief of police deposed by Gov. Donahey on Aug. 23 for non-reliance in office and failure to enforce liquor laws, and denied a rehearing by the governor in a decision announced Wednesday, will carry his case to the supreme court, he announced immediately after hearing of the governor's refusal.

Watkins contends that as he was under civil service, the governor has no authority to remove him. A transcript of the testimony taken at Columbus is being prepared. Watkins, who is one of the twelve candidates for mayor under the new charter which becomes effective Jan. 1, announces that he will remain in the race.

### KLANSMEN PLAN BIG GATHERING

Klan Officials Claim 100,000 Will Meet in Steubenville Sept. 29 For District Ceremonies.

Steubenville, Sept. 12.—Over 100,000 Klansmen from Ohio, West Virginia, Pennsylvania and Michigan will be in this city for a Ku Klux Klan convocation Sept. 29, according to statements of Klan officials here today.

The meeting here will be the largest ever held by the Klan in this section of the country, officials of the organization claim.

The Klansmen will parade in this city in spite of the fact that a riot attended Klan doings here a month ago and authorities are preparing to handle any situation that may result. The feature of the convocation, the officials say, will be the initiation of thousands of candidates at ceremonies to be held on several farms west of the city.

## Christian Church School of Religious Education

Fall and Winter Terms Open September 16th

**ELEMENTARY SCHOOL**—Children 4 to 9 years of age. Simple Bible stories and history; Christian songs and prayers; Bible drills and exercises, are supervised and directed by adult Christian women. The children are cared for with a mother's tenderness. Leave the children at Education building, No. 11 East Green St., at 9:45 a. m. each Sunday.

**GRADE SCHOOL**—Is the school for boys and girls 10 to 17 years of age. This school studies the Bible, Church History and Biography. Competent teachers for every class.

**GRADUATE CLASS**—For young people over 18 years. This class is conducted by lecture method. No text required. Subjects announced by the instructor. The Fall term will be devoted to the study of religious development, a psychological study. The class is arranged to suit the needs of young people, who are asking: "What is Religion and what of the church?"

**ELECTIVE COURSES**—A class for men; two classes for women; two mixed classes. Any man or woman can find a congenial class group in the school. These groups select their studies. This term all are studying the International Lessons. The subject for study will be "The Whole World, the Field for Christian Service."

**EXTENSION COURSES**—Beginning in October Extension Courses will be offered during the Autumn and Winter months. Week day class for Junior Bible drill, and Story Hour for children. Evening courses for adults; Old Testament History, New Testament Literature, Modern Prose, Poetry and Drama, and Social Science.

**THE WHOLE SCHOOL** is conducted with an ideal for religious and spiritual culture. Not alone to hear the Word but to do His Will. As we teach we urge for life behavior measured by the standard of the LIVING WORD.

**NEXT SUNDAY, SEPTEMBER 16, OPENING DAY. SPECIAL PROGRAM.** Mrs. Stuffer and Mrs. Mosley of Canton will sing. A Roman soldier in full armor to illustrate the Christian armor as described in Ephesians 6th chapter. A real live Roman soldier! Every student in his class! Visitors are welcome. We solicit your enrollment in our courses.

H. L. MILLER, Superintendent of Religious Instruction

## TRY THIS RECIPE TO MAKE COLD CATSUP

One gallon ripe tomatoes finely cut and of best quality, 1 pint gatted brise radish, 2 nearly ripe peppers cut fine and with seeds out, 1 teacupful onions finely cut, 1 teacupful celery finely cut, 1 teacupful sugar, 3 pints best vinegar, 1 package Barby's Picadilli and Cold Catsup Spices. Put all together and mix cold, and it will be ready for use. Seal and keep in a cool place.

Do not forget that for good results the vinegar must be of a good quality and the tomatoes etc., good and fresh.

Send 30c today for a generous package of Barby's Picadilli and Cold Catsup Spices. Sold and guaranteed by Alliance Drug Co., Box 366, Alliance, Ohio.

## AUERBACH'S LAWYER TO TESTIFY TODAY

Prohibition Agents Accused  
Of Accepting Graft For  
Protection.

Cleveland, Sept. 13.—Samuel Rembrandt, former attorney and brother-in-law of Louis Auerbach of "Million Dollar Hair Tonic" fame is expected to be the chief witness today in the trial before Federal Judge D. C. Westcott, in district court here of A. Frank Counts, Cleveland lawyer; Fred Counts, his brother, former federal prohibition agent of Cleveland; Samuel A. Hoskins, former chairman of the state civil service commission and Joseph Shearer, former federal prohibition director of Ohio. The four defendants are arraigned on charges of conspiracy to violate the federal prohibition laws.

Rembrandt's testimony was expected to substantiate the story told on the witness stand yesterday by Samuel Zelker, real estate broker, who said he had turned over to A. Frank Counts upwards of \$60,000 for "protection" and "tips" furnished the Auerbach brothers.

Zelker, trembling continually from a paralytic affliction, told before a crowded court room yesterday how he had acted as "messenger boy" for the Auerbachs and Frank Counts tipping the former off when their "barber shop" plant was to be inspected by federal agents and carrying a weekly payment of \$4,000 to Frank Counts for his help.

Zelker himself is under indictment for violating the federal prohibition laws. Several days after he was indicted Zelker said he met Fred and Frank Counts and they talked of his predicament.

## ANNOUNCE SAFETY CONTEST PRIZES

Essay Prizes Are Offered  
For School Pupils  
And Teachers.

Washington, Sept. 13.—Renewal of its annual safety contests, in which \$6,500 will be given away in prizes, was announced today by the Highway Education board.

Training children in habits of highway safety is the principal task of the 1923 campaign, it is said, but through the children it is hoped that the principles of traffic regulation and safety education will be impressed upon adults, both pedestrians and drivers alike.

The third annual safety campaign takes the form of two contests, one among elementary school pupils, and another among elementary school teachers. Approximately 500 state and national prizes are to be given for the best essays and lessons written. The prizes offered are the gifts of the National Automobile Chamber of Commerce, which is desirous of reducing the number of accidents and fatalities due to traffic mishaps.

In the two previous years approximately 400,000 pupils and 50,000 teachers have participated each autumn. It is believed by each official that the cumulative effect of these contests and the increasing attention given to safety education will result in even a greater number of participants this year.

The subject of the essays which children are invited to write is "Highway Safety Habits I Should Learn." Essays, as last year, are not to exceed five hundred words in length. Those eligible are pupils of the fifth, sixth, seventh and eighth grades, who are not more than fourteen years of age. The contest opens with the beginning of school, and closes December 4, 1923.

Teachers are requested to submit safety lessons on the subject "Training Children in Habits of Safety on the Highways." The limit suggested is between 1,000 to 3,000 words. All elementary school teachers in the eighth and lower grades are eligible to submit lessons.

In the teachers' contest the first national award is \$500 and a trip to Washington with all expenses paid. The second national award is \$300, while the third national award is \$250.

The first national prize for the best essay by pupils is a gold watch and a trip to Washington with all expenses paid. The second and third prizes are each gold watches, one of slightly greater value than the other.

Four hundred seventy-eight state prizes are offered pupils. The first state prize is a gold medal and a check for \$15. The second state prize is a silver medal and \$10. Third prizes, which vary in proportion to the elementary school population of the state, are bronze medals and checks for \$5.

## EIGHT MEN NABBED

Continued from first page  
was discovered that a disorderly house was being operated by Connell. In two rooms upstairs Virginia Andrews and Eugene Nowak were found with one visitor.

The women and the man were arrested and brought to city hall. At their hearing the two women pleaded guilty to being suspicious characters in a house of ill fame and were fined \$10 and costs and ordered out of town. The man was released, pending good behavior.

Woods, Vogelhuber, Matz, Cosgarea and Ciccozzi are still in the city jail. They will all be arraigned some time Thursday. The trial of the other three men, Alton, Rogers, and Andrei will be Friday night. It is probable that the others will be arraigned then also.

The raids were conducted sporadically all evening, the officers dividing into three parties and combing the city. This is also the first time in several weeks that state officers have conducted raids in this wholesale fashion.

## Endeavorers Pick Leetonia For 1924 Convention Host

Leetonia was selected as the meeting place for October, 1924, convention of the Columbiana County Christian Endeavor Union, at Tuesday night's conference of the officers of the county organization at Lisbon.

The convention will be held in the Presbyterian church.

George Lafferty, Lisbon, president of the union, presided at the conference. An advisory committee consisting of the following persons was named: Harold Risinger, Anna Robinson and Margaret Sylvie, East Liverpool; Imogene Petty and Mrs. E. L. McGarvey, Wellsville; E. S. Vincent and George Meiser, Salem; Miss Margaret Carothers, Leetonia, and William Todd, Signal.

## New County Health Nurse Is Appointed

Miss Louise Steele, of Ontario, Canada, was chosen by Dr. A. S. McCullough as county health nurse, arriving in Lisbon Tuesday afternoon from Cleveland, and Wednesday entered upon her duties at the Red Cross booth at the county fair grounds.

Miss Steele comes to this county highly recommended. For several years she was engaged in private nursing at Worcester, Mass., and recently completed a public health course in nursing. Miss Steele takes the place of Mrs. Katherine Kinneson who recently resigned to enter Western Reserve this fall.

## 13 STUDENTS TO ATTEND COLLEGE

Columbiana Is Represented At Many Institutions This Year.

Columbiana, Sept. 13.—There has been a growing interest among the youth who graduate from Columbiana schools during the last three years toward higher education. Below is a list in part of those who will attend college this year: Clarence Burdette and Mary Calvin, Mt. Union; Jerry Crouse, St. Luke's hospital, Cleveland; Helen Keller, Heidelberg college, Tiffin; Perry Keyser, Mt. Union; Sarah Leonard, Wittenberg, Springfield; Even Lodge, Ohio State university; Mildred Mowen, Pearl Cope, Edith Rice, County Normal at Lisbon; Paul Price, Heidelberg; Paul Swope, Bluffton, O.; Leah Wilkinson, Mt. Union.

Frank Leshner

Miss Lanorma Dortha Frank, daughter of Mr. and Mrs. Paul H. Younger, was united in marriage Saturday, Sept. 8, with Carl W. Leshner at high noon at the Lutheran parsonage by Rev. C. E. Krumm, pastor of the church. The ring ceremony was used and only the parents of the bride and groom were present. The bride came to Columbiana with her parents from Avalon, Pa., three years ago and has acquired many girl friends. Mr. Leshner resides in North Lima. After a ten days honeymoon trip to the Great Lakes Mr. and Mrs. Leshner will be at home to their friends at 219 North Main st., Columbiana.

Returns From Long Trip

Henry Beck, a Civil war veteran, returned to Columbiana Saturday after a western trip of one month and covered about 8,000 miles of travel. He went from Columbiana to Winnipeg, Manitoba, Victoria, by steamer to Seattle, Stockton, Los Angeles, San Francisco through New Mexico, Texas, Oklahoma, Kansas, Illinois. Mr. Beck visited friends enroute attending the G. A. R. encampment at Milwaukee for four days. Considering Mr. Beck's age 82 years, and traveling alone he has set a remarkable record.

Carl Stacey and John McGale were recent visitors to Columbus on business.

Harry Sittler drove his new Buick sport model into a post while driving near Salem last week and badly damaged the body of the machine.

F. E. Sittler and D. O. Sittler were in Salem on business the last of the week.

Mrs. Charles Boyce and son Chester, W. Va., visited relatives in Columbiana recently.

Solomon Esterly was calling on his son Clarence and family in Leetonia the first of the week.

Mr. and Mrs. Jacob Yoder of Los Angeles are visiting Mr. and Mrs. W. T. Holloway and Mr. and Mrs. William Holderman.

Leo Holloway was in Kensington Wednesday assisting with the orchestra of that place.

Chauncey Wolfgang is nursing a painful wound on his hand which he received while discharging mail at the depot. The hand became infected.

Fred McGahan has been off duty at the Shontz meat market on account of hay fever.

William Nichol's and W. L. Augustine and two sons of the Nichols motored to Barnesville and attended the yearly meeting of the Friends church. The sons of Mr. Nichols attended college at Barnesville.

Fleet Of Oaklands Due to Reach This City Next Friday

One of the fleet of Oakland True Blue Travelers that were dispatched from the Oakland factories at Pontiac, Mich., Sept. 8, to travel through practically every state in the country and part of Canada, will arrive here Friday.

The long tours of these new Oakland 1924 models are being made to demonstrate the performance which can be expected from the new Oakland Six as well as the many new features.

How Mothers Friend aids Expectant Mothers at Child-birth

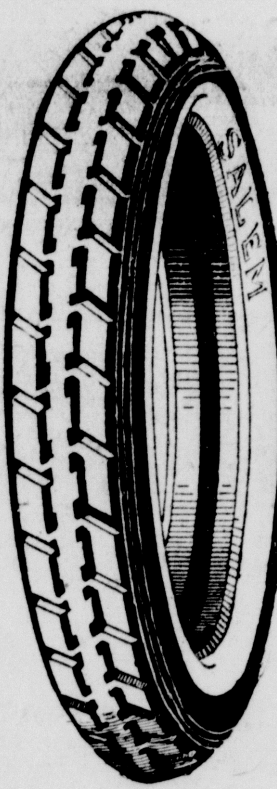

THERE are thousands of expectant mothers who undergo much useless suffering for months before, as well as at the moment when delivery occurs. These months of suffering, with nerves and vital organs weakened, leave their effect upon the child. An eminent physician found the way to stop much of this unnecessary suffering—the same easy way which thousands of mothers have used for three generations.

Mrs. Walter S. Hadley, Bridgeport, Ind., says: "Before my little boy came I was so paralyzed in my hips and limbs I could hardly walk, and some days after a little extra exertion I couldn't walk a step. I felt it coming on this time; in fact, I could hardly get up when I sat down, but now, after using one bottle of Mother's Friend, I am so much better. I feel that I almost owe my life to Mother's Friend."

"Mother's Friend" is applied externally to the abdomen, back and hips. It penetrates remarkably, permitting the easier relaxation and distension of muscles, nerves, tissues and ligaments, and their constant easier readjustment during expectancy and at child-birth. Have no more fear or dread, mother! Start using "Mother's Friend" now—the sooner the better.

Chalfant Motor Co.

1924 Model  
Studebaker Light-Six  
Touring Car  
\$995

Don't Measure This Car By the Price

There is no product where price so fails to indicate value as in a motor car.

The difference in prices rarely represents a corresponding difference in values. Cars are being offered at prices greatly in excess of the Studebaker Light-Six which do not equal its intrinsic value.

Likewise, many cars selling for less, are high-priced compared with the Light-Six. They are not in the same class because they do not represent as great intrinsic value for the money invested. The Studebaker Light-Six is the real quality car in the thousand-dollar field.

The low price of the Light-Six is due to Studebaker's vast physical and financial resources, the saving of middlemen's profits by reason of complete manufacture in Stude-

baker plants, and low manufacturing and sales overhead per car because of continuous large volume.

The satisfaction delivered by the Light-Six is universal. Its performance has won staunch friends everywhere. This is due to its advanced design and construction.

For example, the crankshaft and connecting rods are machined on all surfaces. This practice, which is largely responsible for its virtual freedom from vibration, is exclusive with Studebaker on cars within hundreds of dollars of the Light-Six price.

If you are thinking of investing about one thousand dollars in a car, then in justice to yourself, consider the Studebaker Light-Six first. Come in and see it. Drive it yourself. Driving is believing.

## RIGHTMAN SELECTS TENTATIVE LINEUP AT DRILL SESSION

Squad Put Through Signal Drill Wednesday For First Time.

CAPT. CRUTCHLEY INJURED TUESDAY

Line Will Average 160 But Backfield Will Not Be Over 150 Pounds.

The first tentative lineup of the season was selected by Coach Rightman Wednesday when he put eleven candidates for places on the Salem High team through a lengthy signal drill.

The squad was composed of Sartick, left end; Gaunt, left tackle; Kelly, left guard; Simonds, center; Stalman, right guard; Bush, right tackle; Houser, right end; Bova, quarter; Volmer, left half; Cessgrove, right half; Yengling, fullback.

This does not mean that Lichtman has picked his team for the season. He merely wanted to try out simple formations and see how the men responded to the signals. Some of the veterans are sure of their places but the new men it is still a toss-up.

Gaunt is the heaviest man on the team, tipping the scales at 170. His weight is badly needed on the line but, probably average 158 to 160 pounds.

In the backfield it is doubtful if the average weight will exceed 150 pounds. Bova is the lightest man and Yengling the heaviest.

Assistant Coach Nickel put the line-men through a long practice prior to the signal drill. He had, among the many out, the following promising candidates for line positions: Houser, Yoder, Miller, Sallsmith, Corso, Lodge, Kelly, Krepps, Bush, Lewis, Schorrenberg, Catlin, Fogz, Sidinger, Hickey and Judge. Drill in positions occupied most of the session.

**Captain Is Injured**  
Conspicuous by his absence from the squad is Captain Crutchley who unfortunately developed a charley horse in Tuesday's practice and will be out of the lineup for several days. His is the first real casualty of the season. Wednesday he followed plays but he was not in uniform. In class during the day he could hardly make his way around.

It is understood that there is still good material in High school that has not yet appeared. With only four veterans out, all newcomers and green men have the same chance. Rightman hopes to get all available timber out before the week is over.

## NEW GAUGE OF HORSEPOWER

Method of Showing the Relation Between It and a Kilowatt Has Been Devised.

More than 100 years ago James Watt took the strength of a "strong London draft-horse" as a unit of measurement to indicate the power of his steam engine. This unit, which was the amount of energy that would raise 33,000 pounds one foot in one minute, he called one horsepower.

Electric motors, automobile engines and all other forms of energy-producing machinery have been measured in terms of Watt's horsepower ever since, says a bulletin of the New York State Committee of Public Utility. The "strong London draft-horse" is dead as a doornail and his horsepower does, but his mighty deeds have been so imbedded in tradition that from that time to this no one has questioned the horsepower of a horse.

Now the unit of measurement, originally taken from a horse, is to be used to measure the strength of other horses, to determine, in terms of mechanical horsepower, how strong they are. There has been designed a wagon, the wheels of which are geared to a hydraulic pump by means of which any required pull can be established and a uniform load resistance maintained. To this wagon will be harnessed various types of horses, from the lordly Percheron, weighing a full ton, to the 900-pound light-harness horse, and from the results there will be established a ratio between weight and strength similar to the tables for electric motors, showing the number of horsepower delivered for every kilowatt of energy consumed.

## SPLENDID RACING AT COUNTY FAIR

Lisbon, Sept. 12.—Winning in three straight heats, Signal Tiddington, owned by Charles Lintz of New Philadelphia, O., Wednesday won the 2:24 trot at the Columbiana county fair here. Signal Tiddington easily led, while Blennis, owned by Clark Dennis of Ravenna, O., finished second in each heat and other horses finished fifth and sixth in each trial. Two others won third or fourth place in each heat.

The time of Signal Tiddington was 2:23 1/2, 2:24 1/2, and 2:24 1/2. Zaze, The Great, owned by Ed Reynolds of Denver, Colo., won third. The Spirits, owned by William Hizon, of Youngstown, fourth; Milton Dam, owned by Grover Posenicht of Canfield came in fifth, and Miss Penn, the property of Harry Caton, Lisbon, finished sixth.

Eddie Haywood, a bay gelding owned by Walter Humphrey of East Rochester, was taken out of the 2:24 trot and entered in the 2:15 trot, where he finished fourth in each of the four heats.

In the 2:18 pace, the purse for which also was \$400 and additional prize money, Patsy Watts, property of Harry Eyster of Youngstown won first, finishing the first heat second and winning the next three heats. His best time was 2:17 1/2. Ed Tullis of Lisbon got the money with Yon Know, who won second place. The rest of the field finished as follows: Daniel W. belonging to Lamborn Bros. of Lisbon, third; Billy Hal, property of William McKee, Lisbon, fourth; Halcyon H. D. Karch, Youngstown, fifth; Esther R. William King, Warren, sixth.

Baron Maid won the 2:15 trot, her best time being 2:17 1/2. Senator Jolly, Harry Eyster, Youngstown, won second place after a fourth heat run. He finished the second heat first. Jerry Vincent, W. H. Fulton, Lisbon, was third; Eddie Haywood, Walter Humphrey, East Rochester, fourth; McClellan J. Harry Eyster, Youngstown, fifth. There were no other entries.

H. O. Beckwith, of Jefferson, served as starting judge, assisted by Patrick McNicol of East Liverpool and Charles Israel of Youngstown. Rev. P. W. McCauley, Lisbon, was clerk of the races, and Ben Laming, Youngstown, timer.

## FIRPO AND CHAMP ARRIVE IN GOTHAM READY FOR FIGHT

Both Fighters Are Fit And Ready For The Gong On Friday Night.

New York, Sept. 12.—Louis Firpo, a challenger, and Jack Dempsey, heavy-weight champion, arrived here several hours apart today from their respective training camps at Atlantic City and Saratoga Springs. Both are fit and anxious for the bout Friday night for the championship of the world.

Dempsey seemed nervous and when asked how he felt he expressed himself as follows:

"I'm fit as a d-d-e now, guess I weigh about 193 or 194 which means that I should scale about 190 or 192 for the fight."

"Gosh, I wish this was Friday night. The toughest part of life is waiting for the old gong to ring. I live about a million years in the 36 hours that precede it. But once in the ring, life really starts for me."

Jack always feels nervous before any fight and as long as he seems fit he will go into the ring with the positive thought that he will knock the "Wild Bull of the Pampano" out before the fight is over.

Firpo is also content. He has many times in the past few weeks expressed himself to friends as being sure that he will give Dempsey a drubbing.

The South American's contender for Jack Dempsey's crown today weighed in at 213 pounds. His trainers expect him to enter the ring at that figure. Horatio Lavelle, chief trainer, is satisfied with the condition of his protégé. "I am confident that Firpo is in the best physical condition possible and that he will win from the king of the heavyweights," Lavelle said. "We have carefully prepared his training and I believe that his tactics will wear down the defending champion before the 15 rounds are completed."

## Battle Of Champs Is On Again

New York, Sept. 13.—The battle of the two champions is on again. Benny Leonard, light-weight king of the world, and Johnny Dundee, wearer of the featherweight crown, will meet in the Yankee stadium Sept. 28. Dundee appeared before the New York state athletic commission today and reversed his stand of a week ago, when the bout was ordered postponed. The fight was to have taken place last Wednesday. The postponement took place when Matchmaker Jimmy Johnston stated that Dundee was out of condition and that in justice to the public, he should be given time to get in shape. Dundee bitterly resented the statement that he was not in condition.

## SALEM SPORTSMEN ENTER YOUNGSTOWN FLY CASTING MEET

Will Vie With Youngstown Casters For New Cup At Tournament.

Fifteen Salem sportsmen are expected to attend the seventh annual bait and fly casting tournament held Sunday under the auspices of the Youngstown Casting club at the lower end of Lake Glacier in Youngstown. Casting is scheduled to begin at 9:30 a. m. and continue throughout the day, with a recess for a picnic dinner at noon. Five main events are listed. They are 1/2 oz. accuracy; 1/4 oz. accuracy; 5/16 oz. accuracy; 3/8 oz. accuracy; and 1/2 oz. accuracy at unknown distance; miss an out; and wet fly accuracy.

All merchandise prizes have been eliminated from the club's meets and in their stead a handsome loving cup valued at \$75 will be presented to the winner of the highest per cent in the 1/2 and 3/8 oz. accuracy events. D. F. Anderson, Youngstown sportsman, donated the cup. It will become the property of any one winning it for three straight years.

The plan is to have the meet each year in the town where the winner of

## THE ETHICAL SERVICE BUSINESS RENDERS

BY J. H. PUELICHER

President of the American Bankers Association

J. H. Puelicher

"I sometimes think we lay too much stress on the technical efficiency of our business instrumentalities and too little on their moral services."

Is it enough to say to our radical opponents of the present capitalistic order that it effectively feeds and clothes and houses and furnishes us with physical comforts and pleasures and therefore it is good? That is not enough. They can rightfully tell us that, even though a system may minister to our physical well-being, if it stunts us morally, if it does not positively make us better ethically, it is an inadequate system.

The general answer to this assertion is obvious. The very fact that our industry, commerce and finance serve us so amply with the materials and means for physical well-being gives us the opportunity to build and support our churches, to foster the arts, to develop our great educational system,—to be kind to one another.

But need we deal in generalities? Do we not find in the direct effect of our business upon the individual much to improve his ethical standards? To toughen his moral fiber? Is it not good for the personal character of the race to do business as we are now doing it?

Let us take the business of banking, for example. Is it a mere mechanism or is it a vital moral force? Does it do more than, by facilitating production, raise the physical standard of living, or is there anything inherent in the manner and methods of banking that raises the moral standard of living as well?

Nine-tenths of our business is done by means of credit. The great bulk of that credit is obtained from the banks. It is obtained from the banks because men have character,—because they are honest, because they keep faith,—because they can be trusted.

If they did not have these qualities they could not do business with credit; they could not do business at the banks. We say banks deal in credit. That is but a way of saying they deal in honor and honesty. They build the business structure with the faith of man in man.

The part banking plays in our business life is growing. That means that the faith of men in each other is growing. The more men who come to the banks with characters that entitle them to credit,—the more men who realize that to gain credit at the banks, they must possess themselves with characters that win them unquestioned trust, the higher becomes the ethical standards of the nation.

Is not this a great moral service that banking renders? It is a greater justification for our present financial system than even its wonderful efficiency in providing us with the material things of life. No greater service could be rendered the nation.

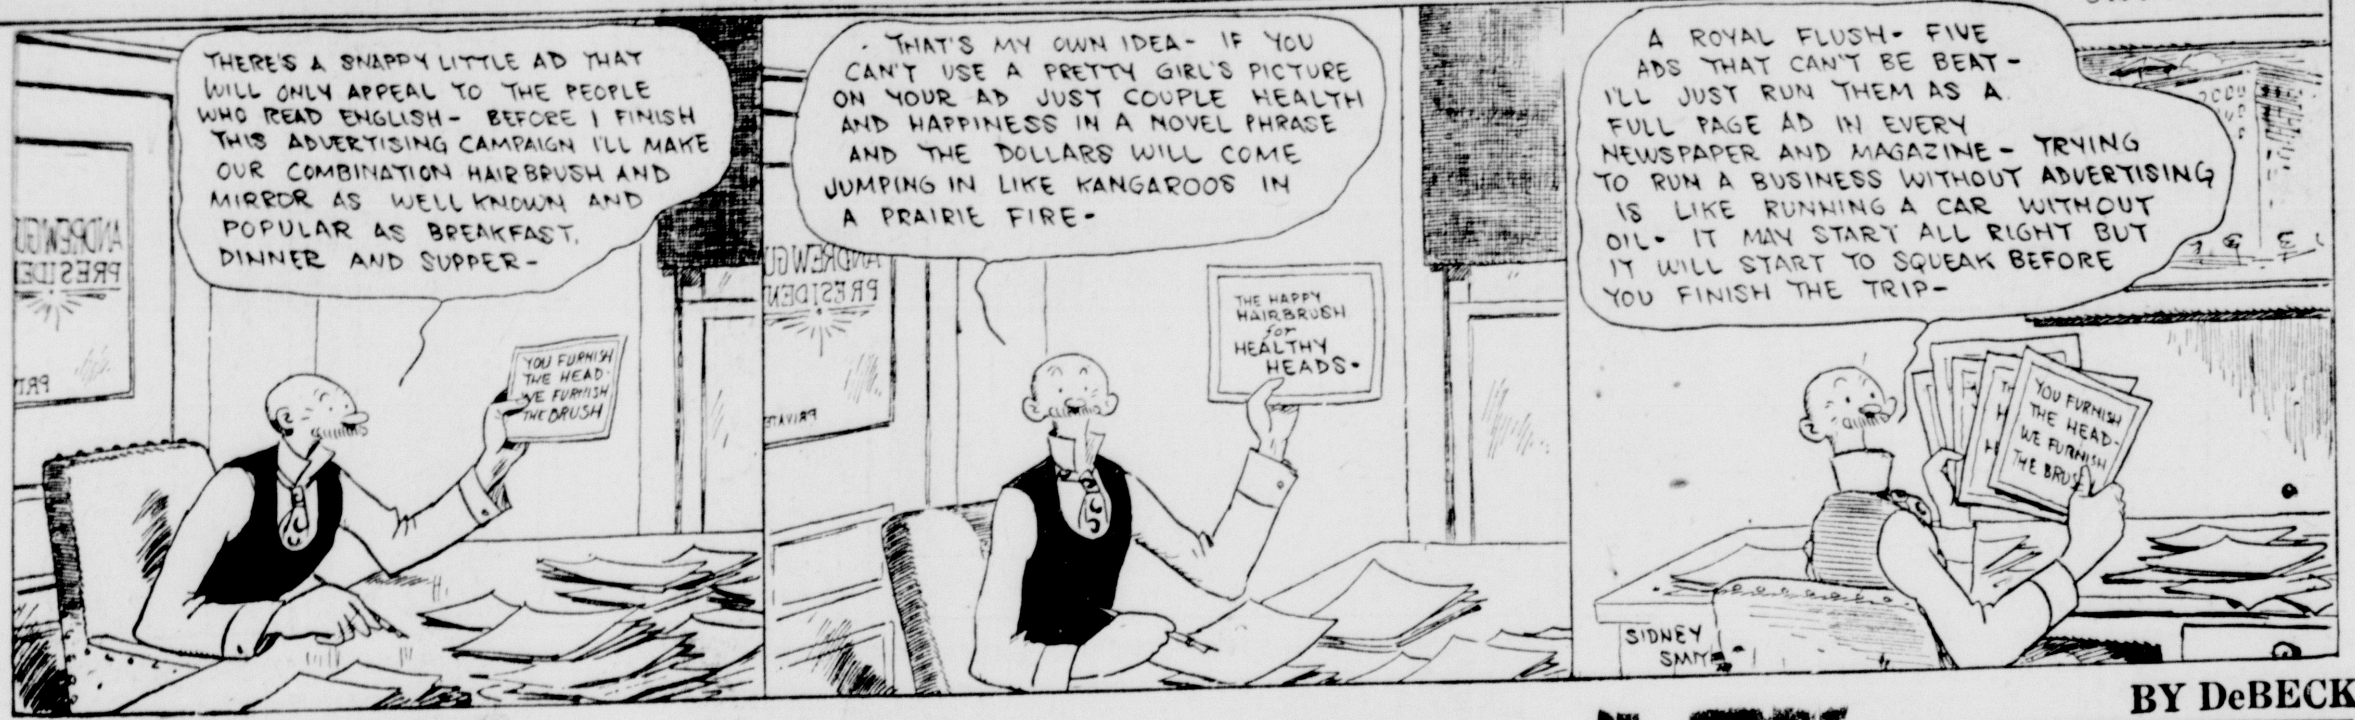

## AMERICA'S NEW PLACE

Many Americans fancy that, because labor is well employed and our industries have been reporting substantial earnings and improvement over the depression period, normalcy has been restored. The truth is, what we must consider normal in the future will be an entirely different thing from what was considered normal prior to the war. One reason is, our new place in the world as the leading creditor nation. That change is a permanent one. We are not going to return to the old position of debtor nation. Bankers in the agricultural communities have come to the conclusion that we cannot afford to maintain an attitude of isolation and that opinion is not a personal one. The men I have talked with are voicing the ideas of the people with whom they have daily business contact.

A great many politico-economists have warned against America's entrance into the European situation, asserting that our foreign trade makes up less than 20 per cent of our production, and therefore is too small an item to be vital or to risk our investment in. They forget, and most people who have listened to them forget, that the unimportant 20 per cent is the difference between full employment of our industries and labor and much unemployment and business depression. If a manufacturing enterprise is running at 90 per cent of capacity, it may be making a fairly good showing of earnings, but it is not running at normal and is not earning the margin which it should earn in order to be fully prosperous. It appears obvious that we shall have to build up foreign investments in this country. But it will be necessary to go slowly in the matter of foreign investments. There must be assurance that whatever we loan will be used for productive purposes.—William E. Knox, Second Vice-President, American Bankers Association.

BY DeBECK

## BARNEY GOOGLE

## THEATRES

### "An Old Sweetheart of Mine"

James Whitcomb Riley's immortal poem "An Old Sweetheart of Mine," has been dramatized for Metro and is coming to the High school auditorium Thursday, Friday and Saturday. This charming lyric of the great Hoosier poet is called "perhaps" America's most popular poem by Marcus Dickey in his book "Youth of James Whitcomb Riley," and it is deservedly popular, because it contains the essence of life and love. In it is the pure sentiment, the wistfulness, the pathos and the joy that characterizes the best work of the poet.

The photoplay version retains all the human appeal of the poem. It is the poem itself made to live before our eyes. And the dramatic interest is sharpened by a beautiful and thrilling story which fits admirably—the spirit of the lyric. Where the original poem suggests, the picture amplifies. It is a simple lyrical melody, orchestrated and expanded into a powerful and beautiful photoplay symphony.

The selection of Elliott Dexter for the leading male role was particularly fortunate. He can portray power and tenderness with equal ability. And Helen Jerome Eddy, as the girl creates with rare charm, a novel type of heroine.

### Harvey's Minstrels

A really first class colored minstrel show, adorned with every conceivable modernity in the way of dressing and coupled with a lively high class vaudeville show and a genuine musical revue—such is the varied and delightful entertainment which Harvey's Greater Minstrels will offer to the patrons of the Grand theater Tuesday, Sept. 18.

There is music—syncopated music, there are Southern melodies, Southern blues, jokes, dances and a chorus of 20 singers and dancers.

Harvey's minstrels is a high spirited frolic of syncopated song and dance, it is also a "plantation" and "creole" pastime, a musical comedy, and vaudeville revue, and gives a copious exhibition of the range of talent.

## Things to Know About Our Service

## Wire It Right In the Beginning

Homebuilders! Property Owners! Landlords and Architects! Read this message from the American Builder Magazine—

"Wiring a house in the most complete manner possible is not expensive. It seldom exceeds five per cent of the cost of building. It is the greatest labor saver that a home can have and the cheapest of all permanent comfort equipment of a home. It costs less than plumbing and heating, and when it becomes as thoroughly understood as plumbing and heating it will be as carefully planned."

You're not going to be satisfied having that new house wired for one center fixture in each room. That's only the beginning. What about decorative little side wall brackets—you may want them sometime. Where will you attach your lamps? And the toaster? And the vacuum cleaner? And the iron and the washer? And the curling iron?

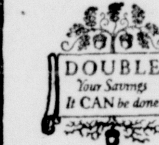

SEE THAT YOUR WIRING CONTRACTOR PROVIDES "CONVENIENT OUTLETS" IN EVERY ROOM, ON PORCHES, AND IN THE LAUNDRY. Have this done when the house is first wired and save money! Our Lighting Engineer will gladly confer with you or your architect.
